Thursday 18th May

'Time to Share' 3.20 p.m.

Saturday 20th May

Choir performance

Friday 26th May

School closes at 3.20 p.m. for half term.

What have we been learning this week?

Nursery and Reception

This week we started reading our new book, 'What the Ladybird Heard'. We all talked about the characters and setting and Reception have drawn a story map. On Monday Reception enjoyed visiting all the classes in school as part of Science Day. They took part in different activities and experiments and met all the other teachers in school. Nursery met the new starters and are looking forward to learning alongside them when they join us after Easter. We have also been secretly making a big card and a banner for Miss Armstrong's last day at Spittal. We will miss her very much but wish her all the best with her new career in nursing.

Class 2 and 3

This week Year 1 and 2 have enjoyed getting crafty. The children have made post bags using recycled materials and made cards for Mother's Day. In maths year 2 have been learning to divide where there will be a remainder. Year 1 have been learning to measure length and height in centimetres and designed posters in Literacy.

Class 4 and 5

On Monday Year 4 had a very exciting day visiting other classrooms as part of Science Day. Some of the activities which they particularly enjoyed included: making paper helicopters, observing how colours mix using water, making watertight boats using lego, creating erupting volcanoes with bicarbonate of soda and vinegar and making fireworks in a glass using food colouring and oil. In literacy this week we have started to create our illustrated reports on Victorian children's jobs which we will finish next week. In maths we have completed our work on equivalent fractions. We have also created some amazing Victorian writing and illustrations for a new wall display. We hope you like it!
